SUMMARY

I specialize in web/app development and design as a web/app developer, I have extensive experience creating user-friendly and visually appealing interfaces. I'm proficient in various programming languages, including HTML, CSS, JavaScript, Java and Dart as well as popular web frameworks like Reactjs, Flutter. I can assist you with front-end and back-end development, responsive design and more.

WORK EXPERIENCE

Software Engineer, Aakam360

Aug 2024 – Present

Full-stack development involving modern technologies like React, Node.js, and cloud platforms. Worked on scalable web applications with both front-end and back-end responsibilities.

Software Development Intern, E2 InfoSystem

Mar 2023 – Jul 2023

- Involved in full-stack development projects, implementing REST APIs and managing SQL/NoSQL databases.
- Collaborated with the team to design user interfaces, debug issues, and enhance overall performance of applications.

Mobile App Development Intern, Senchola Technology Solutions

Sep 2023 – Dec 2023

- Achieved a J1+ Grade by completing all basic training, demonstrating readiness for live project engagement.
- Recognized for displaying enthusiasm, leadership, self-discipline, and self-motivation during the virtual internship.

PROJECTS

No Due Management System

[GitHub Link](#)

A full-stack web application developed using **React.js**, **Node.js (Express)**, and **MySQL** with **Sequelize ORM**. The system automates student clearance processes by tracking department approvals, COE verification, and hall ticket generation. Features include authentication, role-based dashboards (Student, Authority, COE), and form enable/disable control through an admin interface.

Mentor–Mentee Management System

[GitHub Link](#)

Built a centralized system for managing mentor–mentee assignments using **React.js** (frontend) and **Node.js** with **MySQL/PostgreSQL** backend. Supports Excel import/export, student data synchronization, and real-time status tracking. Includes GSAP-based UI animations for enhanced experience.

MCQ and Coding Validation Platform

[GitHub Link](#)

Developed an online assessment platform supporting both **MCQ quizzes** and **coding challenges**. Built using **React.js**, **Node.js (Express)**, and **MySQL** with real-time validation. Integrated code execution and test-case validation for multiple programming languages, user score tracking, and admin-controlled question management.

Flow Tracker Mobile, Web App

[GitHub Link](#)

Developed a cross-platform productivity app using **React Native** and web technologies, inspired by PractceLS, to help users track daily workflows, habits, and task completion flow. Integrated dynamic progress tracking, notification scheduling, and interactive data visualizations for performance insights. Designed and deployed a scalable backend on **AWS Cloud** (Lambda, API Gateway, S3) to support real-time data sync and user management across mobile and web platforms.

EDUCATION

- 2018 – 2022

B.E. in Computer Science and Engineering, Sri Shanmugha College of Engineering and Technology

Focused on software engineering, data structures, and web technologies.
- 2017 – 2018

HSC (Computer Science), Gandhi Matriculation Higher Secondary School

Specialized in computer science with mathematics and physics.
- 2015 – 2016

SSLC, Gandhi Matriculation Higher Secondary School

Built a strong foundation in science and mathematics.

TECHNOLOGY STACK

- Frontend

React.js, Flutter, HTML5, CSS3, JavaScript, TypeScript
- Backend

Node.js, Express.js, Python
- Database

MySQL, MongoDB
- Tools

Git, GitHub, VS Code, Postman

SKILLS

- React.js

Proficient in component-based UI development and state management .
- Node.js

Experienced in backend development with Express and RESTful APIs .
- Java

Skilled in object-oriented programming and backend logic implementation.
- Flutter

Cross-platform mobile app development with responsive UI .
- MySQL

Database design, CRUD operations, and ORM integration .

SOFT SKILLS

- Team Work

Collaborative development experience with agile teams.
- Project Management

Capable of planning, organizing, and leading development cycles.
- Organization

Strong attention to detail and effective task prioritization .
